

Set delivery for offset-printing presses:

Each cover is welded and hermetically sealed in a plastic-sleeve. The delivery as set comes in 2 pc.- or 3pc. per set.

For offset-presses where form and ductor rollers have the same or similar diameter all form and ductor rollers, the set consist of:

(3ST) 3 pieces covers with same dimension, fits for form and ductor rollers

For offset presses where two form rollers have the same or similar and the ductor roller has another diameter, the set consist of:

(2A+1H) 2 pieces covers for form rollers
1 piece cover for ductor roller

For offset presses where two form rollers have different and the ductor roller has another diameter, the set consists of:

(1+1A+1H) 1 piece cover for larger form roller
1 piece cover for smaller form roller
1 piece cover for ductor roller

(2D) The sets for water fountain rollers consist of 2 pieces of covers, quality ELWI, elastically woven or quality Super-M-aqua duly marked with*.

We normally supply the assorted sets as quoted in the price list. Sets of always 3 pieces of covers can be supplied in any desired assortment. By adding the characteristic letters **-A** or **-H** to the reference number of the relevant items dampener roller covers will be supplied in a set of three pieces and when only **-A** = form roller or only **-H** = ductor roller will be specified only this kind of roller will be supplied; **-AG** = large form roller and **-AK** = small form roller can also be delivered, if so desired in the set. All covers with end-strings possible.

Additional wettex product programme:

Roller-cover uni-cover 648. For dampener rollers in sheet metal printing machines, e.g. Mailänder, Crabtree and all refitted offset printing machines to operate a sheet metal printing machines, even for those machines with following-on drying ovens.

Roller-cover uni-cover 603. After printing on sheet metals the relevant shapes are stamped. Prior to the stamping operation such sheet metal is made to pass a sheet metal greasing machines, e.g. such makes like NAROSKA, BMV and others. One of the rollers through which the sheet metal is made to pass is covered with a uni-cover 603.

Dampener roller cover **AQUA MOL** and **RED MOL-S** for dampener rollers for offset proof printing.

Roller-cover uni-cover 759 will be used for lithographic- and sign-printing. Cover deliverable from 22 to 165 mm roller diameter.

Roller-covers uni-cover 647 + 711 are those covers which are used in rubber blanket - washing appliances for offset printing presses.

uni-cover roller covers can be supplied in original rolls of a length of 20 metres or as pre-fabricated items.
